

# METABOLIC THERAPEUTICS

Greetings!

We would like to invite you to participate as a sponsor in the 2<sup>nd</sup> Annual Conference on Nutritional Ketosis and Metabolic Therapeutics to be held February 1-4, 2017 at the University of South Florida Embassy Suites in Tampa, Florida.

The conference will bring together a range of international experts who will speak about their research involving the science and application of low-carbohydrate nutrition, ketogenic diets, metabolic supplementation and medications that can be used in the treatment and prevention of cancer, metabolic disorders, and neurological diseases. The conference speakers will also cover optimizing wellness and enhancing human performance and resilience capabilities. This conference attracts audience members from around the world including scientists, students, healthcare professionals (e.g., physicians, nurses, and dietitians), government/military employees, policy makers, and anyone with an interest in nutrition. Currently, the list of confirmed speakers includes many renowned experts, including Drs. Jeff Volek, Eric Kossoff, Colin Champ, Eric Westman, Richard Feinman, and Thomas Seyfried, among others. The conference will consist of three days of scientific lectures and symposia, poster and Q&A sessions. You'll also find many opportunities to network and socialize with our colleagues, and you'll be able to connect with hundreds of attendees who are interested in ketogenic nutrition and health improvement.

This conference represents a wonderful opportunity for your organization to gain visibility with an elite audience and promises to benefit all who attend. We have created four levels of sponsorship to accommodate varied degrees of support for this exciting event. A list of the sponsorship benefits associated with each level is provided below. You can also find more information on the conference website: <http://metabolictherapeutics.com/>.
